# Add Airflow Connections

Here, we'll use Airflow's UI to configure your AWS credentials and connection to Redshift.

1. To go to the Airflow UI:
   - You can use the Project Workspace here and click on the blue **Access Airflow** button in the bottom right.
   - If you'd prefer to run Airflow locally, open http://localhost:8080 in Google Chrome (other browsers occasionally have issues rendering the Airflow UI).

2. Click on the **Admin** tab and select **Connections**.

3. Under **Connections**, select **Create**.
